The CD SeriesOne is the latest and greatest offering in IBT's illustrious catalog of commercial displays, featuring one of our most powerful Android solutions yet. With up to 50,000 hours of on-screen display time, in sizes from 43 to 86 inches, the CD SeriesOne redefines expectations for commercial display technology.

Features

Screen Mirroring

Mirror your screen to our large displays. Up to 9 people can conference and screen share at the same time from whatever device they please, resulting in the ability to collaborate with anyone, anywhere.

High Performance

Featuring 4GB of RAM and a quad-core CPU and GPU combination, our displays are able to deliver 4K commercial content at full resolution and frame rate with no frame drops or stuttering.

Video Wall Configurable

Daisy-chain up to 25 screens with a single cable, perfect for large scale installations. Say goodbye to a bulky mess, and hello to a streamlined, stunning display solution.

Command & Control

fully administrate over dozens of devices at once, all from one central application.

Total Control Over the Classroom

With the CD SeriesOne's picture-in-picture mode, you can now easily display multiple sources of information at once, making it easy to switch between lessons, presentations, and multimedia.

With the ability to mirror with a tablet, you can easily control the display from anywhere in the room, allowing you to move around the classroom freely and interact with your students directly, keeping them focused on the lesson at hand.

IBT Carbon Scale

IBT's environmental impact is graded against this Carbon Scale, with power-hungry, inefficient technology at the top, and clean, low energy products at the bottom. CD 75"	235w Typical	4p per Hour
CD 86"	335w Typical	6p per Hour
CD 98"	425w Typical	8p per Hour

BUYBACK

You could save up to 40% on the cost of a new Xi Interactive display every 5 years!

We understand that refreshing technology can be a very expensive process. We have set up an amazing buyback scheme to be a budget friendly option, allowing you to always maintain the latest technology with the security of a indefinite warranty. Another great way to stay green by IBT recycling your old screen to those most in need in poorer countries.

Simply buy a new Xi Interactive Display, keep it for up to 5 years, and then at the end of 5 years, we will buyback your Xi unit. The value is determined by its condition. This then translates into the discount applied to a new Xi (up to 40%!).

Step 1:

You buy a new Xi Interactive Display.

Step 2:

You keep it for up to 5 years.

Step 3:

We buyback your Xi unit. The value is determined by its condition.

Step 4:

This then translates into the discount applied to a new Xi (up to 40%).

Our BuyBack scheme, in unison with our sustainability pledges, charitable work and recyclable packaging all add up to make our screens some of the most cost-effective and environmentally friendly screens on the market today. What's more, we'll plant a tree for every screen sold, and we return the screen to charity.

HIVE Interactive Whiteboarding Software

Hive - the subscription free software that offers whiteboaring, collaboration, assessment, and multi-file support all-in-one. The infinite canvas can be navigated easily as you create, meaning you don't have to limit your ideas to a fixed page. Move around your page dynamically as you drag and drop images, video, audio, text and more onto your Hive board.

Open Smart & Promethean files natively, giving teachers budget-friendly access to their legacy resources without having to pay a subscription fee. Drag in your Microsoft Word, PowerPoint and spreadsheets into Hive, even without the original software installed.

Create and design endlessly with over 27 tools available to draw your masterpiece on the infinite canvas.

Create a slideshow of your pages with no limits. Set timers and have it automatically play for the room.

Annotate, screenshot, and import into the Hive canvas. Pictures are automatically embedded and saved within your Hive project.

Sloppy handwriting? The recognition tool will automatically convert your freehand into a standard editable text format.

Easily switch back to your desktop with a floating Hive panel allowing you to quickly annotate.

Import your Microsoft and PDF documents into Hive seamlessly.

Infinity Pen

Designed in conjunction with Hive Interactive Software, the Infinity Pen allows the user to effortlessly select from the dozens of creation tools available without the need to navigate the interface itself. Not only will this speed up your workflow, but will also increase your lesson fluidity, allowing you to forget about the technology and focus on teaching.

One Touch Tool

discoveribt.com/infinitypen

Whiteboarding

Access to over 20 creation tools for all of your whiteboarding and annotation needs.

Documents

Upload documents, spreadsheets and presentations to your canvas.

Mini-Apps

Have access to all 20 mini-apps to further enhance your lessons with the great tools available.

Library

The Hive Library gives you all access to loads of clipart as well as access to your own files and images.

Cloud Files

Access your Google Drive and Dropbox files as well as saving your Hive project back to your Cloud folder.

Collaboration

Connect devices over a shared network to share screens, send and receive files and collaborate together.

Voting

Start voting and feedback sessions. Set timed assessments to Hive automatically collates the results for you.

Board In Board

Pull up two whiteboards simultaneously to effortlessly show multiple pieces of content at once.

Handwriting to Text

Using advanced OCR, HIVE can convert handwritten text into text characters in seconds, great for taking quick notes.

One Touch Tool

Access all annotation, shape and document tools in one easy-to-use wheel - everything you need is right at your fingertips.

Remote Admin Management

Screenshare Pro

Participants can share their desktop, files, images and videos, and you the host can retain control, accepting or denying requests to share content. You can even control connected windows laptops and annotate on top of any mirrored content using the Edge's built-in annotation tools.

Connect up to
nine devices

Wirelessly take
control

Send Documents,
Images / Videos

Google Classroom

Simplify creating, distributing and grading assignments with Google Classroom.

Connect with your Google Drive account, Gsuite, and access your documents, spreadsheets and slideshows.

Stream, upload and save all of your favourite YouTube content directly in the app.

Download PlayStore games and utilise the large multi-point touch to get everyone involved.

Set and respond to meetings, linked with your Google Calendar. Just plug in a webcam to utilize.

Command & Control

Remotely manage and control all your interactive displays with ease. Simply log into the system via a computer, tablet or mobile device.

Navigate to the device you want to control without any restrictions or limits. Easily access unattended workstations and servers for operational purposes.

Command & Control is a powerful remote access solution, allowing you to fully administrate over dozens of devices at once, all from one central application. With the ability to control multiple devices remotely, and command them to perform any task, Command & Control saves plenty of system admin time while also being a breeze to use.

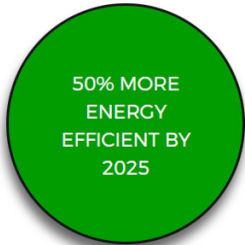

Green Initiative

Route to Net Zero

IBT ensures eco-friendliness and carbon neutrality at every stage.

A Carbon-Neutral Company.

As a business we are looking at ways to reduce our carbon, and ultimately achieve complete carbon neutrality for the near future. Reducing our carbon footprint is something close to all of the staff here at IBT, as we pave the way for future generations.

As part of our efforts to become carbon neutral, we are launching our One Screen, One tree Initiative, in which we plant a tree on behalf of our customers to offset the carbon from the manufacturing and logistics it takes to get our interactive displays to our customers.

Green On Every Level

To see how we calculated our carbon footprint, please visit: www.discoveribt.com/green

FULLY RECYCLEABLE PACKAGING

Our screens come responsibly packaged in 100% recyclable cardboard, meaning all packaging can be safely recycled without worry.

RELIABLE, RECYCLEABLE, REUSEABLE

Not only do our screens provide long lifespans and multi-year warranties, they are also donated at the end of their lifespans to various charities and schools.

In order to further this cause, IBT is now an ISO-registered company.
