

65"

Capacitive Touchtable

CAPACITIVE TOUCH

A smoother more accurate touch experience than standard touch technology that supports the use of Active Pens.

4K UHD

Vibrant, vivid, beautiful presentation of text, images and videos.

WIREFREE SHARING

Cast content with Miracast or MHL. Send documents using Bluetooth.

WI-FI

Built-in Wi-Fi capability so you can get online quickly.

MOTORIZED HEIGHT ADJUSTMENT

250mm height adjustable

HUMAN BODY DETECTION

Touchtable moves out of standby mode when a body is detected.

INTEGRATED SPEAKERS

Two 15w speakers and a 15w subwoofer on the side provide a powerful sound experience. No need for separate speakers.

TOUCH KEYBOARD

No need for a separate keyboard, call up the touch keyboard easily.

NO CALIBRATION

No time wasted calibrating, just walk turn it on and start working.

INTEGRATED WINDOWS PC

The integrated quad core Windows PC means you can install all your favourite Windows applications directly on the touchtable.

ACTIVE PEN COMPATIBLE

The capacitive technology means you can active pen for the ability to draw with pressure sensitivity and greater detailing.

MIRACAST™ AND MHL SUPPORT

Mirror compatible phones, tablets or laptop devices on the touchtable without the need for wires.

EASILY ACCESSIBLE CONNECTION PORTS

The 65" touchtable connection ports are located on the side and concealed by a flap - giving you easy access and protection from inquisitive fingers.

MOTORISED HEIGHT ADJUSTMENT

At the leg height of 590mm you can raise the touchtable up to 250mm higher depending on your audience, (840mm excluding the screen depth).

USER TOUCH BUTTONS

Raise and lower the touchtable with the conveniently placed buttons.

BONDED P-CAP TECHNOLOGY

A bonded solution offers greater structural integrity and a more aesthetic look as there's no gap between the touchscreen and the glass. Stand out from the crowd.

GETTING STARTED

1

Use iFlipChart the Android sketching and annotation app

so you can start white-boarding straight away. iFlipChart is very easy to use and great for drawing, notes, brain-storming, mood boards, collages and more.

2

Use the touch interface to access your Windows

software, included the Windows based Nuc software included for innovative interactive digital whiteboarding. Learn more about Nuc on page 4.

3

Use MHL or Miracast to cast content

from other devices in the room wirelessly. You can also send files wirelessly using the integrated bluetooth functionality.

Nuc provides you with a infinite digital whiteboard page. No need to limit your ideas, move around the page easily adding images, video, audio, text, written notes and use the innovative mini apps to enhance your content.

With lots of pens, lines, shapes, fills, page backgrounds and whiteboarding tools, the UI has been designed to make it intuitive for users to get working quickly and also includes handwriting and shape recognition.

MULTI-FORMAT
FILE SUPPORT

Walk into a room with an interactive touchscreen with Nuc installed and you don't have to worry if there's Microsoft Office installed - Nuc can import Word, PowerPoint, Excel, and PDF content without having the original software installed, so you can share and annotate on your work easily.

CLIPART
BANK

Nuc also includes a clipart bank: from post-it notes, speech bubbles and emoji stickers to currency, periodic tables, food, flags and more.

DESKTOP
MODE

Want to work outside of the Nuc Whiteboard page but still have access to tools? In Desktop Mode you still have access to Nuc annotation tools along with the screen recorder, screen capture and Maths tools. Annotate onto any absolutely any file type, video, websites and save your work.

MINI APPS

Nuc also includes innovative Mini Apps that can help you to enhance your delivery and engage your audience. Here are a few of our favourites:
