## HOW DOES THE BUYBACK SCHEME WORK?

1. You buy a **new Xi Interactive display**.
2. You keep it for **up to 5 years**.
3. We **buyback your Xi unit**, the value of which is determined by its condition (GRADE N,A,B,C,D). This then translates into your discount.
4. That discount is then applied to the price of a new Xi (**up to 40% buyback of your old Xi touchscreen**).
5. The same rules apply to your new Xi, meaning you could receive a **lifetime of savings**, as well as always having fresh new equipment and the security of a warranty for your current screen(s).

## GRADING SYSTEM
